Rural Municipality of Victoria Support for Council Discussion Item Preparing Council for potential request for zoning changes or a major development August 8, 2022

Situation

There are 2 large pieces of land within the Rural Municipality of Victoria (RMV) currently zoned agriculture that are for sale. It is anticipated that the sale could result in requests for rezoning or subdividing and/or major developments.

Background

 At the last Council meeting Councillors were asked to consider what education/orientation/ preparation they would consider useful so they would be prepared if any of the above situations result from these sales.

Analysis

- The timing of the requests would be impacted by which Official Plan and Development Bylaw that the requests would need to be assessed.
- Our new Development Officer was asked for their advice on this matter. If available by the date of this meeting it will be passed on verbally.

Recommendation

Council provide direction to the CAO as to what education/orientation/preparation if any they would consider useful.

Request from a resident:

Dear Acting Mayor, COA and Council,

I would like to recommend that the stairs at Victoria Park be reinstalled. I was very confused to see that the stairs had been taken up today when going for my daily beach walk. Many people use these stairs in the spring, summer and fall when they are put in place. Walking the Victoria Park beach is one of my greatest pleasures in life.

The stairs were installed earlier this season. I understand that the park is closed but somehow that did not deter the many people who visited the park today. Quite a few cars were parked along the road in front of the the chained off entrance. This seemed very unsafe as pets, children and adults including seniors made their way towards the cliff. In addition many people were using the fragile banks in order to access the beach which I am sure goes against the hard work and education the Village has done to restore natural barriers to the eroding banks.

I understand it costs the Village money to maintain this park but I also understand it costs the Village twice as much to subsidize the Victoria Playhouse which has less of a natural use by villagers and visitors alike. I recommend moving those monies to maintaining the park rather than the playhouse.

Thank you for your dedication to ensuring positive experiences for Villagers and visitors in Victoria by the Sea.

Rural Municipality of Victoria Cover re Council Discussion Item

Amendments to Projects Funded under the Canada Community Building Fund (also called the Gas Tax Funds)

August 8, 2022

Situation

For various reasons, the Rural Municipality of Victoria (RMV) has submitted projects that have resulted in excess funds being committed that are available during the approved funding period for the Canada Community Building Fund (CCBF). We have been directed by the Infrastructure Secretariat (IS) to reduce the committed funding to the total currently available per the agreement between the Government of Canada and the Province.

Background

- The IF reconciles our annual Annual Expenditure Report (AER) report to their records on CCBF direct allocation funding each year after we file our audited report. They do this for all municipalities. A copy of this reconciliation is attached.
- The AER records how much money we have budgeted and spent on our various projects we have had approved for funding through the CCBF Direct Allocation Fund.
- The CCBF Direct Allocation Fund is the amount we are allocated directly from the overall CCBF program.
- Council was asked at the last meeting to review this information and come to the August meeting prepared to make the required changes.

Analysis

- You will note in the reconciliation the RMV has committed (\$124,116.82) over the available funding. The RMV has to reduce the committed funds in balance with the available funds.
- There might be some minor adjustments based on revised estimates for current projects or completed projects; however these adjustments would not be sufficient to achieve the directive.
- The RMV has to either terminate projects that have not been started or significantly amend their budgets. A list of the projects that have been approved and not started is attached.
- Any changes made have to be approved by Council and these approvals have to be forwarded to the Secretariat.
- Our recently 5 Year Capital Investment Plan for 2022/23 to 2026/27 extends beyond the
 period of the current funding agreement which expires at the end of March 2024. This means
 that some projects that are in this Plan will not be formally approved to receive funding under
 the CCBF program. This is acceptable as we are required to prepare a 5 Year Plan and we
 can plan assuming the CCBF funds will be available for these projects. However the funding
 cannot be formally approved until the interprovincial agreement is renewed.
- We are currently waiting for direction from the provincial government on the wharf project. Depending on their direction, the necessary funding could either substantively increase or decrease. However, while we expect to receive direction within the next 2 to 4 weeks, the time frame for a decision could be substantively longer. Council should assess the current projects based on what we currently know and, if required, we can amend in the future as necessary.

Recommendation

Council to agree on adjustments to the approved projects to reduce the overall commitment for CCBF direct allocation funding by \$124,116.82.

Acting Mayor's Report - August 2022

Your present council has approximately three months left to serve before the provincial municipal elections to be held on November 7, 2022. The RMV will need a mayor and six councilors to form the new council which will serve for the next four years. It is time for all residents to consider participating in the future development of their community by serving on council. Having a strong and committed council will serve the municipality well regardless of the challenges that lie ahead.

MRSB presented the Draft Options and Recommendations Report (Sustainability Study) to council on July 28. We are in the final stages of the Sustainability Study. Council has requested that MRSB facilitate a discussion amongst council, not to make decisions which have to be done in a public forum, but to have an opportunity to better understand the analysis and implications of the various comments and observations that MRSB make in their report. Once this has occurred, Council with then have a public meeting to discuss the content and recommendations in the report, consider what further engagement and consultation is required with residents and agree on the preferred actions to be taken.

Planning Board has not met since the public meeting on July 6. A Conflict of Interest complaint was received and must be resolved before moving forward in the plan review process. This matter will be addressed at this Council meeting as per the process laid out in our Bylaw.

Finally our most pressing task is the replacement of our temporary CAO with a permanent CAO. It is important for all councilors to be actively involved in this discussion.

August is here, the late summer flowers are blooming in the fields and ditches, and the water has warmed enough to be pleasant for swimming. Enjoy the season ... it passes quickly.

Water Quality Interpretation & Information

Total Coliforms – the maximum acceptable concentration for total coliform is 10. If the coliform bacteria count is less than 10 then bacteria is present but not sufficient to regard water unfit for drink. The results indicate a possible problem with the well. The water should be resampled and the source inspected. If bacteria count is more than 10 water is not considered fit for human consumption. Drinking water should be boiled or an alternate source secured. The water should be resampled and appropriate remedial action taken.

EColi – The maximum acceptable concentration for E. Coli is 0. If any E.Coli is present, the water is considered not fit for human consumption. Drinking water should be boiled or an alternate source secured. The water should be resampled and appropriate remedial action taken.

Background growth - Anything below 200mg/l is safe.

Nitrates – Nitrate at high concentrations can be of concern to health, particularly if the water is used to prepare infant formula for young, bottle fed infants. Guidelines for Canadian Drinking Water quality has set the maximum acceptable concentration of nitrate in drinking water at 10mg/L. This guideline is based on the relationship established between nitrates and the possible occurrence of cyanosis or "blue baby disease."

CAO's Report to Council August 2022

Marsha and I are working into a routine as we both gain a better understanding of our respective roles and responsibilities. You will see many of the improvements Marsha is making in terms of how we administer our work.

Here are some of the more significant activities I have participated in since my last report:

- Attended and supported a meeting of the Water & Sewer Commission (WSC).
- Attended a meeting called by Minister Fox and various Council members concerning the future of Victoria Park.
- Various meetings with the Mayor, our Water & Sewer Operator (WSO), Municipal Elections Officer and our Finance and Administrative Assistant to discuss operational matters and improving how we do our work.
- Met with our Municipal Elections Officer in preparation for our upcoming election as well as to consider changes to our current Elections bylaw.
- Met with rep from Stantec, our WSO, representative from the Department of the Environment, the Chair and a member of the WSC to discuss options related to replacing the temporary repairs to the water line over the causeway.
- Met with rep from Stantec, our WSO and a member of the WSC to discuss how to proceed with the repairs and upgrades to the lift station on the wharf.
- Participated in a telephone call with the planner supporting the review of our current Official Plan and development Bylaw.
- Participated in a briefing with MRSB on their current draft of the Sustainability Study with most members of Council.
- Met with our new Development Officer, former CAO and our Finance and Administrative Assistant to discuss how we can effectively work together to support our current Official Plan and Development Bylaw.
- The RMV received a number of complaints over the last month, most related to concerns around the noise and smell from a restaurant operation and the remainder related to the maintenance of properties and roadways.

Decisions/Discussion items

- Most of the decision or discussion items are contained in other sections of the agenda.
- I would like Council to provide direction on enforcing bylaw infractions.

If you have any questions, suggestions or concerns please pass them on so they can be addressed by the CAO or considered by Council.

Respectfully submitted

Keith Dewar, Interim Chief Administrative Officer

Rural Municipality of Victoria Support for Council Discussion Item Required review and changes to our Election Bylaw

August 8, 2022

Situation

PEI government made changes to the Municipal Election Regulations under the Municipal Government Act that became effective on January 1, 2022. The changes require municipalities to review and update their election bylaw to be compliant with the new regulations.

Background

- The previous bylaw can be found on the website for your information.
- The current limits on fundraising can be found in Attachment 1.
- The draft was reviewed with Hilary Price, our Municipal Elections Officer and Tracey Allen of Municipal Affairs.
- The suggestions and direction from Municipal Affairs are in yellow. This and any instructional information will be removed for the second reading of the bylaw. It is being left in to facilitate the first discussion.

Analysis

- The primary changes are required in the following areas. I have made suggestions merely to get the discussion started. Council needs to decide on the appropriate wording and amounts.
 - The simplified draft bylaw was used as it does not include mail in ballots. If Council would like to include mail in ballots as a means of voting then we would need to use the regular draft bylaw template.
 - Election expenses we are strongly discouraged from limiting this to the current balance of \$1.00. As you will see in the attached appendix, the RMV is definitely an outlier. The proposed amounts are similar to the majority of smaller communities.
 - Campaign contributions allowed by all options; amounts for mayor and councillor were set at a low amount to prevent any perception of undue influence by any contributor; listing of all contributors who contributed more than \$5.
 - Propose we leave in the agreement with Elections PEI as this has been our standard process.
 - Advance polls propose only 1 advance poll which is the minimum.
 - Nominations left the number at 5 as it currently is
- Please note that there will be a special meeting of Council on either Tuesday August 9th or Wednesday August 10 for a second reading of this bylaw as it has to be passed by August.

Recommendation

Council review the draft bylaw, agree on a final draft and then approve as noted in the first reading section of the draft bylaw as follows:

This Elections Bylaw, Bylaw# 2	20XX-XX, was rea	d a first time at the C	ouncil meeting held on the
day of	, 20XX.		
This Elections Bylaw, Bylaw# 2	20XX-XX, was app	proved by a majority of	of Council members present
at the Council meeting held o	n the	day of	, 20XX.

Rural Municipality of Victoria Support for Council Discussion Item Conflict of Interest August 8, 2022

Situation

The Rural Municipality has received a complaint from an elector, Oliver Sauve, that a councillor, Marly Anderson, is in conflict of interest relating to a pending decision of Planning Board.

Background

As per 7.1 (b) of our Conflict of Interest bylaw if such a complaint is received the Council
has to make a decision on the complaint prior to the Councillor participating in the
discussion on the issue for which the complaint was made.

Analysis

- The procedure to be followed by Council is laid out in Section 7.
- The analysis and discussion of the complaint needs to be conducted by Council and the CAO has no say in the matter and has not been asked to provide any supporting information.

Recommendation

Council must declare whether they believe there is a conflict of interest or not as per section 7.10.

Request from a resident:

Dear Acting Mayor, COA and Council,

I would like to recommend that the stairs at Victoria Park be reinstalled. I was very confused to see that the stairs had been taken up today when going for my daily beach walk. Many people use these stairs in the spring, summer and fall when they are put in place. Walking the Victoria Park beach is one of my greatest pleasures in life.

The stairs were installed earlier this season. I understand that the park is closed but somehow that did not deter the many people who visited the park today. Quite a few cars were parked along the road in front of the the chained off entrance. This seemed very unsafe as pets, children and adults including seniors made their way towards the cliff. In addition many people were using the fragile banks in order to access the beach which I am sure goes against the hard work and education the Village has done to restore natural barriers to the eroding banks.

I understand it costs the Village money to maintain this park but I also understand it costs the Village twice as much to subsidize the Victoria Playhouse which has less of a natural use by villagers and visitors alike. I recommend moving those monies to maintaining the park rather than the playhouse.

Thank you for your dedication to ensuring positive experiences for Villagers and visitors in Victoria by the Sea.

Dear Victoria Council and Planning Board.

I am writing to inform you that there is a conflict of interest with Marly Anderson and "Change 1" in the proposed zoning changes (attached in email) from the July 6, 2022 Planning Board meeting.

The conflict of interest arises from the following reasons;

- 1. When we sold Marly the Landmark Café, a large sum of money was held back and is being paid with interest over 5 years. The final Payment has not come due yet and the deal is not over.
- 2. After spending 30 years in the restaurant industry, I plan on continuing in this industry in the future and building some sort of restaurant, café or bar in Victoria. By rezoning my land that would squash these plans and eliminate competition to the Landmark Oyster House, which is Marly's business.
- 3. Sabine has already tried to build a bakery/café. By also rezoning Her lot, again Marly would be in conflict of interest and attempting to destroy any competition to her business.

Thank You

Oliver

Rural Municipality of Victoria Support for Council Discussion Item Replacement of temporary CAO August 8, 2022

Situation

The current CAO agreed to assist Council in supporting the work of the Rural Municipality of Victoria (RMV) to provide time for Council to consider longer term options.

Background

- The RMV is currently conducting a Municipal Sustainability Study which is anticipated to
 provide direction to Council in how to ensure there is a long term and stable solution for the
 CAO position and responsibilities.
- The previous CAO hired a full time finance and administrative assistant (FAA) person who is
 providing significant support to the CAO position and is quickly gaining a working knowledge
 of the daily requirements for their role.

Analysis

- Previous analysis suggested that with a full time support position the RMV would require between 15 and 20 hours of a CAO position weekly.
- There are opportunities to share this role with municipalities around the RMV.
- The current CAO committed to supporting this role to the end of November at the latest. They will be away for 3 weeks in late September/early October. To be fair to the FAA, there should be someone in this role over this period and should therefore be in their role before the CAO is away to allow for an effective transition.

Recommendation

Council consider options and have a solution in place for the CAO role by September 15.
